<b>April 26</b>	8 a.m. – 4 p.m.	<b>September 13</b>	8 a.m. – 4 p.m.
<b>April 27</b>	8 – 11 a.m.	<b>September 14</b>	8 – 11 a.m.
<b>May 3</b>	8 a.m. – 4 p.m.	<b>September 20</b>	8 a.m. – 4 p.m.
<b>May 4</b>	8 – 11 a.m.	<b>September 21</b>	8 – 11 a.m.

## Program Information

Dental radiographs are an integral part in the interpretation of dental abnormalities and diseases. Taking high quality radiographs helps to ensure an accurate and timely diagnosis. As new techniques are developed, the dental practitioner must remain well-informed of these changes and capable of performing radiographic procedures proficiently. This course is designed to help prepare dental assistants on the basic principles and current techniques of dental radiography.

## Course content includes: Radiation history, biology and safety

- Dental x-ray equipment
- Film types and processing
- Darkroom errors and common technique errors
- Anatomical landmarks
- Intraoral and panoramic radiographic techniques

**Program Cost:** \$575

**Registration Deadline:** April 5, 2024
